

Electronics for Advertising

movebox® i-Display

The affordable 10.2" movebox® i-Display is a compact digital signage solution, that has the ability to deliver your advertising information anywhere and anytime. Just push the memory card into the slot and the show at the point of sale can begin. For the data update you can use memory cards, USB Flash Drives or the integrated WiFi receiver. The i-Display is available with a long lasting rechargeable battery which offers the flexibility of being able to fit in any location without the need for any cabling. Another highlight of this product is the clear glass front with black silkscreen.

Applications: Superstores, Shop Windows, Museums, Travel Agencies, Banks, Restaurants, POS, POP, POI, etc.
